HEAVY-DUTY LED DOCK LIGHT

Up to 94% Less Energy!
Because of Tri Lite’s advanced applications of LED technology, the HD Series LED Loading Dock Light requires far less energy than traditional incandescent fixtures, while accomplishing the same lighting task.

Lower Maintenance Costs!
Tri Lite’s HD Series LED Loading Dock Lights will deliver more than 90% lumen maintenance for over 10 years in typical applications and environments. That is usually more than a 60,000 hour life expectancy with a three year warranty.

Virtually Indestructible!
The HD Series LED Loading Dock Light Head is designed for the most demanding environments including extreme temperatures and wet and damp locations.

• Light intensity exceeds a 300 watt incandescent bulb, while using only 18 watts.
• Operating temperature -20°F – 105° F
• Light head is completely sealed with a polycarbonate lens. Rated for “Wet Locations” IP66, NEMA4
• Available as a complete dock light with arm and light head or just as a light head.
• Ideal for use in food warehouses
• Dedicated constant current IP66 LED driver rated for 100,000 hours of operation at 77° F
• Rugged cast aluminum housing
• Field repairable
• Emits cool white light designed to show true colors
• Voltage input: 100-240VAC, 50/60 Hz, Single Phase
• UL, cUL, CE certified and RoHs compliant

Heavy-duty on/off switch and strain relief are located in the recessed back plate, reducing the chances of being impacted and damaged by moving equipment in the loading dock area.

PAR 38 LED Retrofit Bulb

- Easily installs into existing Tri Lite polycarbonate lamp heads (INCHEAD-P Housing)
- No fragile filament to break
- Optimized light angle to maximize trailer lighting
- Lumen intensity comparable to 150 watt PAR 38 bulb
- UL & CE listed and RoHS compliant
- Voltage range for use world wide
- Uses nine high intensity 3 watt LED's

LED Dock Light

- 80% less energy than incandescent or halogen bulbs
- Achieves maximum light intensity instantly
- No fragile filament to break
- No shattered glass to sweep up
- Light is optimized for trailer illumination
- Ideal for use in food warehouses
- Voltage range for use world wide
- 3-Year Warranty
