

DOCK LOADING LIGHT FAN INSTRUCTIONS

ALWAYS... unplug unit for cleaning and maintenance

DO NOT

- use an extension line other than the “V” cable included when both a fan and a light are used.
- place foreign objects through the guard into blades.
- allow the unit to become wet.
- use FAN with any solid state speed control device.

Assemble dock light with the FAN at the bottom of the arm. Attach the light to the top of the arm. The FAN requires the use of the special bolt with a shake-proof elastic stop nut both of which are included.

These replace the bolt and nut which are used to mount the light fixture when a FAN is not used.

Two 5/8” open end or adjustable wrenches will be needed to fully tighten this special bolt and elastic stop nut.

The FAN is equipped with a four position switch, which allows you to select the desired air flow. During normal operation it is not uncommon for the motor to become warm to the touch. The motor is equipped with a thermal cut-out which will automatically remove power should the motor overheat. After cooling the motor will restart. Should you notice cut-off it is a good idea to unplug (or set the switch to the off position) the FAN to avoid an unexpected restart.

Your FAN is virtually maintenance free. DO NOT oil any parts.

LIMITED WARRANTY

If it appears within one (1) year from the date of delivery to Purchaser that any products or component parts do not conform exactly to the specifications and physical dimensions referred to above, and the Purchaser, at its expense, returns the product or component parts to the Seller together with a report of defects, the Seller shall review the inspection report and inspect the items and shall authorize, at its option, either the repair or replacement of any non-conforming products or component parts, whether on warranty, contract of negligence, shall not in any case exceed the amount to be paid by the Seller in obtaining and repair or replacement of non-conforming products or component parts, and upon expiration of the warranty period, all liability of the Seller shall be terminated.

Seller shall not be liable for any injury, loss or damage, direct or consequential arising out of the use or the ability to use the product.

This warranty gives specific legal rights. You may have other rights which vary from state to state. Some states do not allow the exclusion or limitation of incidental or consequential damages, so that the above limitation or exclusion may not apply to you.

WARNING: The individual user should take care to determine prior to use whether this device is suitable, adequate or safe for the use intended. Since individual applications are subject to great variation, the manufacturer makes no representation or warranty as to suitability or fitness of these devices for any specific application.
